Hi Sue,

Deliberative Process / Ex. 5

I'm going to keep working on the draft that's in the folder, but we should touch base on Monday. **Deliberative Process / Ex. 5** it also points out we need to edit the arrays, and all of the Levine et al 1983b's need to change to Levine et al 1983.

I definitely am rusty on the lit search stuff, so I hope I'm not screwing things up too much by continuing on with the SAB draft. Let's talk Monday?

-Lou

Good morning Sue-

Attached are the RDX draft Tox Review and Supplemental file, as well as a separate ppt file containing the Lit Search Diagram. Both HERO and HERONET versions of the documents are attached. Megan was able to create master HERO IDs for the Lish and Levine papers and correct the citations throughout the documents; the master HERO IDs link to the individual volumes of each. The footnote was deleted, and the RDX project page currently matches the Literature Search Diagram.

Please let us know if you have any questions or comments.

Thank you and have a great weekend!

Heather
